

Camera cleaning

Clean! Those who take proper care of their equipment are rewarded with brilliant photos. But when it comes to cleaning your camera and lenses, a sure instinct and a sense of proportion are required. We show with the help of picture examples when it makes sense to take action, present the most important tools from bellows to lens pen and point out dangers.

Mirrorless full format for beginners – a market overview

The manufacturers Canon, Nikon, Panasonic and Sony are gradually switching to mirrorless system cameras. Especially the full format sensor should fill the cash registers, therefore these camera families are opened for beginners. We have looked at what options are available and what beginners really need.

Tripods under 150 Euro

For a high-quality tripod you can quickly invest several hundred euros. But what to do if your budget is tight? We have tested current tripods under 150 euros and found models with an exciting price-performance ratio.

Tilt/Shift lenses

Using special lenses in everyday life: Tilt/Shift lenses are real exotics, with the help of which the optical axis can be moved and tilted. This gives photographers new creative scope for architectural, panorama and landscape photography. We show how to master the lenses and demonstrate how to get hold of the special lenses even without a fat wallet.

Photography in winter

Every season offers special motives but also challenges. Alexander Otto explains how to be perfectly prepared for the cold season. We show reduced, calm motifs that are suitable for large-format murals and give valuable tips.

Tethered Shooting

In the studio it is practical to have the photos on the computer immediately after shooting. In this way, the quality and effect can be assessed immediately on the large screen. The article describes the necessary hardware and how it works in practice.

Lenses for mirrorless entry-level full format

With new camera models the manufacturers want to inspire newcomers to the mirrorless full format. We have taken a look at what affordable lenses are available.
