

The optimal PC is usually not available off the shelf. In the special issue c't DESKTOP DYI, the specialists from the c't editorial team present construction proposals for desktop computers and servers that optimally meet their own requirements. The building instructions cover a wide range from the quiet all-rounder to a flexible home server to the affordable gaming PC and can also be customized to suit.

Extensive purchase advice articles and tests of current processors, fast SSDs, powerful graphics cards and well-equipped mainboards explain what is important when selecting hardware components. The special issue c't Desktop DYI also helps to select the right hardware for the new Microsoft Flight Simulator.

From the content

- Building proposals for servers, all-round and gaming PCs
- Tests of current processors
- Mainboards for AMD Ryzen and Intel Core i
- Fast SSDs and large hard drives
- Gaming graphics cards
- Tips for server hardware
