

## Photograph star trails

Night and astrophotography has many facets. One of them is the recording of tracks that the stars paint in the sky due to the earth's redness during a long exposure. Such long exposures are quick and easy to make. But how to perfect them for such impressive images, we reveal in this article.

## Photographing people while traveling

Do you like to observe people and situations, but often hesitate too long before pressing the shutter release? Expedition photographer and documentary filmmaker Ulla Lohmann often travels abroad and gives tips that help you photograph foreign people respectfully and take beautiful, authentic pictures.

## APS-C mirrorless

Using the Fujifilm X-S10 as an example, we present what mirrorless APS-C system cameras have to offer photographers and which current models can be found in stores. We also show the features that differentiate the models from the various manufacturers.

## Fixed focal lengths for APS-C

Professionals rely on fixed focal lengths for their photos. But manufacturers also offer these lenses for entry-level cameras with APS-C sensors. We offer a market overview for Canon, Fujifilm, Nikon, Pentax and Sony.

## Memory cards

There has been a lot of change in memory cards for photographers in recent times. New standards are waiting in the wings, while others disappear after only a short time. Our guide and practical test explains what you need to know, which card you need and when less is more.

## Expression – Ways to more expression in the image

Some images attract the eye more than others, especially black and white gives the opportunity to direct the viewer's gaze over shapes and structures, to hide or emphasize aspects. We give playful and experimental photo tasks that lead photographers more to their own visual language and more expression in the image.

## Leica Q2 Monochrome

The special one: Leica's Q2 Monochrome works without color filters and creates exclusively black-and-white images. We report on how the noble compact camera performs in various photographic disciplines and what makes it so unique.
