# TECHNICAL SPECIFICATIONS

## PRINTING PROCESS

**Insides:** Web Offset (CMYK)  
**Cover:** Sheetfed Offset (CMYK)  
**Size:** Trimmed size: 210 x 240 mm  
Bleed: 3 mm head, 3 mm foot, 3 mm face, gutter 4 mm  
Cutting marks must be included.

## ARTWORK

**Types:** Printing documents (data) fonts: Please note that all fonts have to be supplied. If fonts are missing replacement fonts will have to be used, these could eventually change the appearance and the layout of the ad.

**Other details:** The minimum line width is 0.2 mm. Images with very thin structures and Copy-Dot-files could cause a moiré and have to be avoided.

**Recommended file formats:** Preferably non-separated PDFs (PDF/X-4 or higher). Distiller settings can be downloaded from support at [www.appl.de](http://www.appl.de). Types must be encapsulated and the CMYK colour mode has to be used. Please avoid to pass on so-called 'open' files. This may cause version and system-related errors for which no liability can be accepted. In case you do send such files the following programmes are supported:

**Mac programmes:** Photoshop, InDesign, Illustrator

**PC programmes:** Photoshop, InDesign, Illustrator

**File names:** A clear file name has to be chosen indicating "publication", "issue number", "advertiser's name", "ad size", "printing process" e.g. "ct1209Microsoft\_1x2\_offset".

**Data carriers:** CD or DVD

**Resolution:** Screen: min 300 dpi; Line: min 800 dpi

**Inside proof:** The inside proofs have to be made according to the 4 colour mode (CMYK) based on the standards "PSO\_MFC\_Paper\_41L\_eci.icc" for PT 3 Offset. The respective profiles can be downloaded from [www.eci.org](http://www.eci.org)

**Cover proof:** The cover proofs have to be made according to the 4 colour mode (CMYK) based on the standards „ISO coated\_v2 for PS1 Offset. The respective profiles can be downloaded from [www.eci.org](http://www.eci.org).

The proofs for the insides and the cover must be made from your supplied files. Only if the proofs are made according to the correct parameters, your advertisement can be printed within the usual tolerances of the process. In case of any queries on colour adjustments or ICC profiles, please do contact the Colour Management department. Phone: +49 90 92/999-231.
