DEVELOPER CONFERENCES 2ND HALF OF 2023

Conference	Date	Location	Topic	Number of participants*
 Herbstcampus	Sept 06 – 07, 2023	Technische Hochschule, Nuremberg	Herbstcampus www.herbstcampus.de The (regional) developer conference with a learning atmosphere: The Nuremberg conference offers IT pros a professional and, above all, familiar environment in which to learn about current trends, but also to deliberately discover topics outside the mainstream. Focal points are: Software Architecture, Containerization, Java, .NET, Cloud, APIs, IaaS and Teamwork & Advancement.	220+
 // heise devSec()	Sept 12 – 13, 2023	IHK, Karlsruhe	heise devSec www.heise-devsec.de The conference for secure software and web development: At heise devSec, you will meet security experts as well as developers and architects who focus on the topic of security. The conference explores the following important questions: How can applications be protected against yet unknown vulnerabilities of tomorrow? How do teams integrate security into agile processes and continuous integration? How can distributed systems be consistently secured? What measures help secure systems that use machine learning?	210+
 data2day	Oct 11 – 12, 2023	IHK, Karlsruhe	data2day www.data2day.de The conference for data scientists, data engineers and data teams: data2day is the conference for all professionals in companies who collect, store, prepare, analyze and visualize data. From the classic approaches for structured data in the world of data warehousing and business intelligence to the to the unstructured and flowing data in clouds, networks and the I(I)IoT, appropriate methods and tools are needed to extract valuable information from bits and bytes for decision-making and forecasting in the data-driven enterprise..	200+
 >> Continuous Lifecycle >> [Container Conf]	Nov 15 – 16, 2023	Congress Center Rosengarten, Mannheim	Continuous Lifecycle + ContainerConf www.continuouslifecycle.de www.containerconf.de The conferences for Continuous Delivery, DevOps, Containerization and Cloud Native Attendees of Continuous Lifecycle and ContainerConf 2023 will get an overview of the most important methods and tools in the areas of Continuous Delivery, DevOps, Containerization, Cloud Native, DevSec and Developer Experience. Field reports will use project examples from various industries to show when and how containers, Kubernetes and co. can be used appropriately and where their use encounters limitations and pitfalls. Buzzwords such as containerization, orchestration, infrastructure-as-code, GitOps and microservices are critically examined for their practical suitability.	330+
 c't <webdev>	Nov 14 – 16, 2023	KOMED, Cologne	c't <webdev> www.ctwebdev.de The conference of c't: Web designers and software developers will gather at the event center KOMED and will be offered an exciting and challenging lecture program. As sponsoring partner of the c't <webdev> you will present your services and offers to an expert and interested target group. More information about c't webdev on request!!	200+
