| secIT      | secIT Fair + conference  
March 15 - 16, 2023 – Hanover Congress Centrum  
secIT - THE meeting place for security users and providers! In 2023, the IT security industry will meet for the fourth time in the trade fair city of Hanover to exchange information about current projects, innovative technologies, trends and the latest developments in the field of IT security. The secIT has grown over the years and will take place in 2 halls and on an area of over 5,000 m². We are also upgrading the content. 3 theme stages, up to 20 workshops and more than 40 expert talks offer enough possibilities to convey exciting contents and to discuss with each other. We are also expanding the start-up area and will integrate a recruiting area. This offers our exhibitors various options to draw attention to themselves and to position themselves in terms of content. If you would like to know more about vacant booth areas and presentation opportunities, please contact us. If digital secIT is also of interest, we will grant a combined discount of 15%.  
Target group: IT security managers, managing directors, CSOs, COOs, data center managers, IT department managers, IT administrators, data protection officers  
Participants: 1,500  
www.secit-heise.de |
| secIT DIGITAL | Digital fair + conference  
September 13 - 14, 2023  
At secIT Digital, the latest trends, solutions and information on IT security will be presented. As with the face-to-face event in March, secIT Digital will also have a strong topic-related and editorial character. We have already learned in recent years that digital formats are a popular alternative for many visitors, which is why we want to offer our participants the opportunity to inform themselves and follow exciting lectures between their busy schedules and everyday life. We offer exhibitors the opportunity of 24 presentation slots and up to 12 breakout sessions. Thus, we offer the highest possible visibility, access to all event participants and plenty of potential for lead generation in the 2nd half of the year.  
If you are interested in participating, request the detailed sales kit.  
Target group: IT security managers, managing directors, CSOs, COOs, data center managers, IT department managers, IT administrators, data protection officers  
Participants: approx. 1,000

| **heise Security Tour** | **Digital specialist conferences**  
June 29, 2023 / 1st serve  
September 27, 2023 / 2nd serve  
**Presence events**  
Juni 01, 2023 – Cologne, Komed  
Juni 15, 2023 – Stuttgart, Steigenberger  
Top-class, independent experts from the c’t editorial team, from heise Security and from the author environment of Heise Medien take a close look at current security threats and trends. The security conference is a kind of roadshow and will take place twice digitally and twice face-to-face in 2023. The lecture programme is identical on all conference days, 100 % independent and vendor-neutral.  
**Target group:** IT security managers, administrators, data protection officers, technical decision-makers  
**Participants:** 120+ per conference day  
[www.heise-events.de/Conferenceen/securitytour](http://www.heise-events.de/Conferenceen/securitytour) |
| **IT Security Days** | **Presence events**  
November 09, 2023 – Gelsenkirchen (in cooperation with the if(is))  
The IT Security Days deal with current issues in the field of IT security and are aimed at system administrators, IT security managers and technical experts from companies in all industries. Each IT Security Day has its own main topic and thus also an individual program. What both conferences have in common is the structure of the program as well as the content support of an educational institute. Both conferences are supplemented by the participation of sponsors. Partners who would like to be present at both dates will of course benefit from a combined discount.  
**Target group:** Security and data protection officers, Federal BSI baseline protection officers, technical experts in the company, system administrators, network administrators and network planners  
**Participants:** approx. 100 per conference day

## RECRUITING

### heise Jobs IT KOMPAKT

**Presence events**
- March 15 - 16, 2023 – Hanover (as part of secIT by Heise)
- August 23 - 27, 2023 – Köln Cologne (as part of the gamescom)

In 2023, we will start under a new name with the event series heise Jobs IT Kompakt. We combine these recruiting events with larger (IT) events in Germany. Exhibitors are companies from various sectors that are looking for personnel support in the field of IT and present their vacant positions, training and further education places as well as part-time courses of study. Presentations on the topics of working in IT, application processes and methods, individual career paths, business coaching and short company portraits round off the presentation. Further events are being planned.

**Target group:** ICT job seekers, IT professionals, specialists and managers, young IT professionals, students

**Participants presence event:** depending on the fair

**www.it-job-kompakt.de**

### heise Jobs IT TAG

**Presence events**
- March 02, 2023: Hamburg
- March 08, 2023: Düsseldorf
- March 23, 2023: Munich I
- April 20, 2023: Frankfurt
- 04. May, 2023: Leipzig
- May 12, 2023: Hanover
- June 06, 2023: Stuttgart
- June 14, 2023: Nuremberg
- June 21, 2023: Cologne
- September 07, 2023: Dresden
- September 14, 2023: Munich II
- September 21, 2023: Darmstadt
- October 05, 2023: Berlin

heise Jobs, the job exchange of Germany's leading IT news website heise online, and Jobware, the job market for specialists and executives, have been organizing the heise Jobs IT DAYs (former IT job days) very successfully for several years. Numerous attractive employers present themselves with their current job of ers, training and further education positions as well as extra-occupational study courses from the ICT segment. In a direct interview you can inform the applicants, get to know them and exchange ideas with them.

**Target group:** Graduates, students, young professionals, specialists and managers

**Participants per location:** 100 +

## INNOVATIONEN

<table>
<thead>
<tr>
<th>Conference</th>
<th>Topic / Date</th>
</tr>
</thead>
</table>
| storage2day       | Presence event  
Sept. 26 - 27, 2023 – Frankfurt  
The amount of data in companies continues to grow. Their storage and fast provision is becoming an ever greater challenge. storage2day, the conference for data storage technologies and data management, presents proven solutions from practical experience.  
**Target group:** System administrators, computer center managers, hardware buyers, security managers, CIOs, CTOs  
**Participants:** 150 + per conference day  
[www.storage2day.de](http://www.storage2day.de) |
| Maker Faire      | Presence event  
Aug. 19 - 20, 2023 – Hanover  
The Maker Faire is the festival for inspiration, creativity and innovation. At the Maker Faire, sponsors can present themselves in an innovative and future-oriented environment, recruit new employees, offer their products and services to makers, other companies or visitors with affinity for technology, and organize hackathons, competitions and product tests.  
**Target group:** Makers, hackers, pupils, students, teachers, creative people, DIY and technology fans, families, engineers, developers, programmers, IT specialists and craftsmen  
[www.maker-faire.de/hannover/](http://www.maker-faire.de/hannover/) |
| Sponsored Online-Conference | Digital specialist conference & Recruiting events  
Together with you, we design an online conference on a topic you specify. These are usually specialist topics from areas such as developer, IT security or HR (recruiting event and/or specialist conference).  
We take over both the entire implementation and the generation of participants. You benefit from our editorial know-how, our good image in the industry, our experience in the event sector and, of course, from the promotional power of our media. In this way, we provide you with individual and exclusive access to our IT target groups. If you are interested in this format, we would be happy to explain the possibilities and requirements to you in a personal meeting.  
**Participants:** 100 - 150
