

NETWORKS

c't Netzwerke helps to optimally set up the home network. The special issue provides a broad overview of current network hardware - first and foremost Fritzbox routers -, advises on purchasing and evaluation, and supports setup with in-depth know-how. Wi-Fi 6 extensions are well established, but are now hitting the sweet spot between price and performance ahead of Wi-Fi 7's broad market launch. In the focus on VPN modernization, the issue explains why central servers are unnecessary and how easy it is to master modern VPNs.
