**EDITORIAL PROFILE**

**c’t magazine** is Europe’s largest IT and tech magazine and one of the most reliable and respected sources of information for everyone interested in technology - from demanding users and data center professionals to IT executives and investment decision makers. 273,207 buyers per issue, including 161,309 subscribers, appreciate the unique magazine that stands for thematic diversity, technical know-how, journalistic independence and in-depth research.

With independent and cross-platform product tests, useful practical reports, background information and fundamental articles, **c’t magazine** lays the foundation for know-how and for purchasing decisions in the private and professional environment. The topics range beyond IT topics to e-mobility, energy supply, sustainability and digital health.

**c’t magazine** is published biweekly in all relevant print and digital channels, thus ensuring appropriate topicality and responsiveness in a dynamic market for both readers and advertisers, but with the required thoroughness. Podcasts, social media presence and YouTube channels expand the c’t brand with digital offers.

**TECHNICAL DETAILS**

**PRINTING PROCESS**
- **Insides:** Web Offset (CMYK)
- **Cover:** Sheetfed Offset (CMYK)
- **Size:** Trimmed size: 210 × 297 mm
  - Bleed: 3 mm head, 4 mm gutter, 3 mm face, 3 mm foot

**ARTWORK**
- **Types:** Printing documents (data) fonts: Please note that all fonts have to be supplied. If fonts are missing replacement fonts will have to be used; these could eventually change the appearance and the layout of the ad.
- **Other details:** The minimum line width is 0.2 mm. Images with very thin structures and Copy-Dot-files could cause a moiré and have to be avoided.
- **Recommended file formats:** Preferably non-separated PDFs (PDF/X-4 or higher). Distiller settings can be downloaded from support at www.appl.de. Types must be encapsulated and the CMYK colour mode has to be used. Please avoid to pass on so-called ‘open’ files. This may cause version and system-related errors for which no liability can be accepted. In case you do send such files the following programmes are supported:
  - **Mac programmes:** Photoshop, InDesign, Illustrator
  - **PC programmes:** Photoshop, InDesign, Illustrator
- **File names:** A clear file name has to be chosen indicating “publication”, “issue number”, “advertisers name”, “ad size”, “printing process” e.g. “ct1209Microsoft_1x2_offset”.
- **Data carriers:** CD or DVD
- **Resolution:** Screen: min 300 dpi, Line: min 800 dpi
- **Inside proof:** The inside proofs have to be made according to the 4 colour mode (CMYK) based on the standards “INP Paper” for PT 3 Offset. The respective profiles can be downloaded from www.eci.org. Only if the correct proof parameters are adhered to, your advert can be printed in accordance with the standard process tolerances.

**Cover proof:** The cover proofs have to be made according to the 4 colour mode (CMYK) based on the standards ISO coated_v2 for PS1 Offset. The respective profiles can be downloaded from www.eci.org. The proofs for the insides and the cover must be made from your supplied files. In case of any queries on colour adjustments or ICC profiles, please do contact the Colour Management department. Phone: +49 (0)9092/999-232.

**TECHNICAL HANDLING**
- **Files/Proofs to be sent to:** appl druck GmbH
  - Abteilung Elbo-Bogen
  - Senefelderstraße 3-11
  - 86650 Wemding, Germany

Please enclose for checking Obligatory printouts or colour space adjusted proofs with reference to the contact person and phone number. On the delivery address for copy materials (files/proofs) it is absolutely essential to indicate clearly the department “Abteilung Elbo-Rolle”. We cannot accept any complaints if incorrect data is supplied.

**Queries on file supply:**
- **Phone:** +49 (0)9092/999-232
- **FTP access:**

**We Are Developers! Magazine**

We Are Developers! - the magazine for developers and those who want to become one.
Reach a top target group of almost 200,000 heise subscribers (c’t and iX magazine) with this combo. In addition to the print edition, the magazine is distributed as a digital edition to a large number of young developers (free and interactive PDF version).

The digital edition will be promoted via heise online, WeAreDevelopers and additional promotional activities. For example, 30,000 registered users of WeAreDevelopers will receive access to the digital version of the magazine, 90,000 WeAreDevelopers followers will be notified of the issue, (including linking), and 12,000 subscribers will be made aware of the magazine directly via the newsletter. Issue 2 will be published prior to the WeAreDevelopers (WAD) World Congress (July 2024) and will be published in English to additionally address WAD World Congress attendees. This will be the first time the e-magazine will be distributed to the developer community worldwide!

c’t, iX and heise Developer have the readers and users you need: including IT and software professionals, IT engineers, innovation managers and a broad readership interested in IT and technology. And WeAreDevelopers has a developer platform on this topic. The developer potential lies dormant in them. Awaken the developer gene from its slumber.

Additional touchpoint in the c’t community

For numerous companies, social media is an important component of their communication strategy. In addition to branding, direct contact with the community plays a central role, new customers are addressed and new employees are convinced. But social media is also playing an increasingly important role in lead generation.

USP:
Your ad will only be played in the audience of c’t and c’t Photography on Facebook and Instagram.

Benefit:
You reach followers in a private usage situation and thus set a new touchpoint within their customer journey.

Videos from Europe's biggest tech newsroom

If you thought entertainment and serious tech journalism were mutually exclusive, you haven't heard of c't 3003 yet!

In weekly YouTube videos, the experienced video makers Jan-Keno Janssen and Johannes Bornsen highlight everything that comes under their wing – from the Raspberry Pi to smartphones to electric scooters: sometimes silly, but always technically sound. What sets c't 3003 apart from other YouTube channels is the expertise of Europe's largest tech editorial team: over 60 c't editors support the channel with their know-how.

**The Podcast from Nerdistan**

In the weekly podcast from Nerdistan, c’t editors talk in small circles about their topics from the current issue. We present results from current device and software tests, argue about new developments in the digital world and provide a look behind the scenes of tests and research. We also tell the stories behind the c’t articles and reveal the one or other detail that has not made it into the print version.

### c’t a matter of interpretation

**The c’t data protection podcast**

Every fortnight, c’t editor Holger Bleich discusses the latest developments in data protection with Joerg Heidrich. Joerg Heidrich is the in-house lawyer responsible for the topic at c’t’s parent company heise medien and deals with the European General Data Protection Regulation (GDPR) on a daily basis. Changing guests complete the panel.
