

Frauen und Technik – with Eckert and Wolfangel

Have you ever heard this saying – with raised eyebrows, a subtle shake of the head and a slightly annoyed exhalation: ‘Women and technology...’, then you’ve come to the right place. The new c’t technology podcast ‘**Frauen und Technik/Women and technology with Svea Eckert and Eva Wolfangel**’ plays with this cliché, charmingly breaking it down and imparting knowledge in the process. The two experienced freelance technology journalists dedicate themselves to an exciting tech topic every fortnight and invite inspiring female guests to join them. But the podcast hosts also bring something to the table: investigative and exciting research, for which there is a short deep dive right at the beginning of each episode.

Episode 1 will be released on September 4th and from then on every second Wednesday.

- Podcast format:**
- Audio format
 - Length of the episode: 60 minutes
 - Released every 14 days wednesdays
